Response to Arguments

Applicant's arguments, see REMARKS, filed 07 October 2005, with respect to the rejection of Claims 1-4 and 13-16 under 35 USC 102(b) have been fully considered and are persuasive with regard to the step of calculating an integrated value of an amount of heat applied to the coating on a basis of the temperature data. The rejection of claims 1-4 and 13-16 has been withdrawn.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a Personal Interview with **Attorney Jim Howard** on **18 October 2005**.

The application has been amended as follows in order to more clearly describe the invention by correcting the claim dependency of claim 17, which had included redundant claim elements:

In the Claims:

In Claim 17, Line 1: after "of claim", the numeral "5" has been deleted and the numeral --1-- has been inserted therefor.

Reasons for Allowance

The following is an examiner's statement of reasons for allowance:

Claims 1, 13 and 14 are allowable because the prior art fails to teach or fairly suggest a coating dry estimating method, recording medium or system for estimating a dry state of a coating on a coated target as claimed by Applicant in Claims 1, 13 and 14, comprising: calculating an integrated value of an amount of heat applied to the coating on a basis of the temperature data, as defined in the claims, each arranged and

Art Unit: 2859

functioning as recited in claims 1, 13 and 14, wherein a dry state of the coating is estimated on a basis of the integrated value of the amount of heat, in combination with the other limitations of the respective claims. Claims 2-12 and 15-20 are allowable by virtue of their dependency upon Claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
